SUMMARY

- Enthusiastic and detail-oriented **Java Full Stack Developer** with hands-on internship experience at **AI Variant** and full-stack training from **ExcelR**.
- Proficient in **Java, Spring Boot, React.js, MySQL, HTML5, CSS3, and JavaScript (ES6+)** for developing responsive and dynamic web applications.
- Experienced in building scalable, maintainable, and user-friendly web solutions through practical project work.
- Passionate **Cybersecurity Enthusiast** focused on building secure, efficient, and reliable software solutions.
- Skilled in implementing **authentication, vulnerability mitigation**, and following **secure coding practices**.
- Highly motivated to contribute to innovative software development projects and **continuously enhance technical and problem-solving skills**.

PROJECT

VESTRA E-Commerce store

github.com/uday-andra/VESTRA-E-Commerce-Store • November 2025 – November 2025

- Developed a **real-time online clothing store** offering seamless shopping experiences with **React, TailwindCSS, Java, Spring Boot, and MySQL**.
- Implemented **JWT-based authentication, Spring Security**, and **role-based access** for secure user and admin operations.
- Integrated **Razorpay / UPI / COD payments, wallet system**, and **email invoice generation** for real-world e-commerce flow.
- Designed **responsive user and admin dashboards** with live order tracking and order management.
- Demonstrates end-to-end expertise in **frontend, backend, and API integration** for production-ready systems.

Bank Management System

github.com/uday-andra/BankApp • October 2025 – October 2025

- Developed a full-stack banking web application using **Java, JSP, Servlets, JDBC, and MySQL** to manage core operations like account creation, deposits, withdrawals, and fund transfers.
- Implemented **MVC architecture** for clean separation of logic and used **JDBC** for secure database connectivity.
- Integrated **session management** and input validation to enhance data security and user authentication.
- Designed responsive **JSP-based interfaces** for viewing balances, transaction history, and updating account details.
- Delivered a fully functional, secure banking system demonstrating strong **Java full-stack development** skills.

EDUCATION

Bachelor of Technology

Pace Institute of Technology and Sciences • Ongole • 2025 • 8.35 CGPA

CERTIFICATIONS

Full Stack Java Developer Internship Certificate

ExcelR • 2025

Certified Ethical Hacker

CISCO Networking Academy • 2025

Responsive Web Development with HTML5, CSS3, JavaScript

Infosys Springboard • 2022

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React

Backend: Java, Spring Boot, MySQL, MongoDB

Networking: TCP/IP, DNS, HTTP/HTTPS, OSI, VPN

Pentesting Tools: Kali Linux, Burp Suite Professional, Termux

Software Tools: Git & GitHub, VS Code, IntelliJ Idea, Eclipse, SpringToolSuite4, Postman

Platforms (OS): Windows, Linux
